Professional Summary

Full Stack Developer with hands-on experience in building AI-integrated web applications and scalable learning platforms. Proficient in modern web technologies such as Next.js, Node.js, and React.js. Passionate about designing intuitive user experiences and developing impactful digital solutions. Strong academic foundation with consistent performance, demonstrating both technical excellence and collaborative problem-solving abilities.

Technical Skills

- **Programming Languages:** Python, Java, JavaScript, TypeScript, C, C++, SQL, HTML, CSS, Tailwind CSS
- **Frameworks & Libraries:** Next.js (14 & 15), React.js, Node.js, Express.js, Redux Toolkit, ShadCN, Clerk
- **Development Tools & Platforms:** Postman, Vercel, Render, GitHub, VS Code, Linux, NPM, Yarn, CI/CD
- **Security & Testing:** JWT, OAuth, Bcrypt, Jest
- **Soft Skills:** Team collaboration, Agile development, problem-solving, and timely project delivery.

Key Projects

- **DevFlow Web/App** – A community-driven Question and Answer platform for developers built using Next.js 15, ShadCN, Clerk, and MongoDB. Integrated AI-powered assistance (Google Gemini) to generate intelligent answers, enhancing discussion quality. Implemented secure authentication and a responsive modern UI, reflecting scalable design principles.

Live: <https://devflow-tau-olive.vercel.app/>

- **EduSpark Web/App** – A full-stack online learning platform developed using the MERN stack and MongoDB to help students learn interactively. Integrated Razorpay for secure payments and built real-time progress tracking with user-friendly dashboards. Designed to enhance engagement and accessibility for digital learners.

Live: <https://eduspark-host.vercel.app/>

- **Media and Docs Manager** – Built a secure full-stack file management system, developing the frontend using Next.js 15 and the backend using Node.js and MongoDB. Implemented JWT-based authentication with role-based access control and cloud storage integration for seamless document uploads, previews, and downloads.

GitHub: <https://github.com/manjeetsinghrandhawa/media-docs-manager>

- **E-commerce Web (Front-End)** – Designed an interactive, responsive front-end interface using React.js, Tailwind CSS, and JavaScript, focusing on dynamic components and optimized user experiences. Strengthened understanding of state management and modular UI architecture.

Education

Drs. Kiran and Pallavi Patel Global University – Vadodara, India
Bachelor of Technology in Computer Science and Engineering
(CGPA – 8.8 / 10) | Oct 2021 – May 2025

NetaJi Model School – Vadodara, India
Higher Secondary School (Score – 81%) | Jun 2019 – May 2021

Relevant Coursework

Data Structures and Algorithms, Database Management Systems, Object-Oriented Programming, Web Technologies, Artificial Intelligence, Cloud Computing, Software Engineering, Data Analytics, Operating Systems, Machine Learning, Computer Networks.

Independent Research & Innovation

Demonstrated a strong research mindset by independently developing AI-integrated and full-stack web applications addressing real-world challenges. Focused on system scalability, cloud deployment, and secure authentication using modern frameworks. Explored AI integration and real-time collaboration through self-guided experimentation, showcasing innovation and advanced problem-solving abilities.

Achievements & Soft Skills

- Achieved top academic performance for three consecutive semesters, demonstrating consistent excellence in core computing subjects.
- Independently built scalable, full-stack applications featuring advanced integrations and real-world functionality.
- Exhibited strong communication, presentation, and debate skills during university project exhibitions and technical events.
- Highly motivated, detail-oriented, and resilient, with a persistent approach to debugging and problem-solving without quitting.
